

# DIRECTIONS FOR USING BLAZE JELLED CAN FUELS

## STANDARD OPERATING INSTRUCTIONS

---

### **BLAZE PRODUCTS:**

Our jelled alcohol based fuels are for warming food in chafing dishes only; the *fuel* will burn approximately 2 hours. *BLAZE* is a clean burning fuel with minimal soot and odor.

### **WARNING:**

#### **FLAMMABLE!**

*BLAZE* is a flammable product. Do not use or store opened or closed cans near a fire or flame.

*BLAZE* is for industrial and institutional use only. ALWAYS keep away from children.

*BLAZE* contains DENATONIUM BENZOATE, a very sour substance which aids in preventing ingestion.

**NEVER LIGHT THE FUEL WHILE HOLDING THE CAN.**

**NEVER LEAVE LIT BLAZE UNATTENDED.**

**ALWAYS USE CAUTION WHEN HANDLING BLAZE PRODUCTS.**

**ALWAYS USE FLAME RETARDANT MATERIALS AROUND FUEL AREA**

**i.e. TABLECLOTH, NAPKINS AND TABLE SKIRTING.**

**DO NOT ALLOW TABLECLOTH AND TABLE DECORATIONS TO COME IN CLOSE PROXIMITY OF THE FLAME.**

### **STORAGE:**

Store away from heat, sparks, or open flame. Keep container capped when not in use. Avoid breathing of vapor or contact with eyes, skin, and clothing.

### **DIRECTIONS FOR USE:**

Pry the lid off the product. Save the lid for recapping if the entire contents of the fuel are not used.

Remove the water pan and food pan.

Place one or two cans of fuel under the chafing dish in the designated holder or tray. NEVER use more than two cans of fuel at a time under a chafing dish.

Always begin with HOT water. Fill chafing dish water pan with hot water to *the* indicated level marked on water pan. Check water pan periodically to ensure a sufficient water level is maintained.

**NEVER USE WITHOUT WATER!**

Light the product with a long stemmed match or long handled lighter and adjust the heat cup to the desired opening.

The can will become very HOT within minutes. Always allow the can to cool before handling.

### **TO EXTINGUISH:**

Slide heat cup cover over the opening to restrict oxygen, or invert the aluminum plug over the opening.

### **DO NOT BLOW OUT!**

Let can cool, recap securely. This is an alcohol based product and will evaporate if not tightly sealed.

### **TIP:**

If you encounter difficulty when lighting, simply scratch the surface of the jell and then light. To avoid product loss, keep the lid on the can until ready to light it. Recycle container.

### **FIRST AID:**

Flush affected area with plenty of water; if in eyes, hold eyelids open and flush with plenty of water for at least 15 minutes. If swallowed, have victim drink water or milk and induce vomiting. Do not give anything to an unconscious person. If not breathing give mouth to mouth artificial respiration. Call a physician.
