

# BLAZE®

Fall 2009

## Features and Benefits of using Jelled Ethanol & Methanol

- Cost Effective
- Reaches boiling point (212 degrees) faster than any other canned fuel.
- Recyclable containers.
- Standard Operating Instructions on the label & carton.
- BLAZE is ISO-9001:2008 Certified.
- No odor.
- Ethanol Fuel is the hottest burning on the market (1630 BTU per hr).
- Produces least amount of soot on Chafing Pans.
- Can be used for emergency lighting.
- No expiration date.
- Made from all natural products.

## HANDLING PROCEDURES

- Do not store near heat or flame.
- Keep away from children.
- Harmful if swallowed.
- Place under chafing dish before lighting.
- Do not light while holding can.
- Light fuel with a long stem match or candle lighter.
- Never leave a lit can unattended.
- Check water levels periodically.
- Do not blow out. Smother with the lid.
- Recycle empty containers.

COMPANY**

### QUALITY STATEMENT

"Our goal is the continuous improvement of products and processes to meet our customer's needs."

### QUALITY NEWS

Recent Regulatory Audits:  
ISO Surveillance audit  
Was conducted on  
**September 23, 2009.** BLAZE  
was issued by NSF a 3 year  
re-certification to  
ISO-9001: 2008 on  
**September 15, 2008.** Visit our  
website for an updated  
certificate.

The Total Quality  
Management Teams have  
been set up for 2008.

### THE TEAM GOALS ARE:

- ISO Audit Team will audit each department for compliance to ISO-9001: 2000.
- Reduce and eliminate downtime.
- Last audit conducted in September
- Track customer returns and errors, develop newsletters, and update web page and surveys in an effort to better meet our customer needs and requirements.

Take precautions  
against H1N1 by using  
Guardian Antibacterial  
Hand Sanitizer, which  
kills 99.9% of bacteria  
on hands.
